Our Services

Frank Ryan Financial Services is a member of the Professional Insurance Brokers Association (PIBA). As a member of PIBA we must be in a position to place insurance with at least five insurers of the relevant form (life/non-life) and therefore can generally give consumers greater choice than agents and tied agents.

Our principal business is to provide advice and arrange transactions on behalf of clients in relation to life & pensions/mortgages/deposits products. A full list of insurers, product producers and lending agencies with which we deal is available on request

Frank Ryan Financial Services acts as an **Independent Broker** which means that:

- a) the principal regulated activities of the firm are provided on the basis of a fair analysis of the market; and
- b) you have the option to pay in full for our services by means of a fee.

Fair Analysis

The concept of fair analysis is derived from the Insurance Mediation Directive. It describes the extent of the choice of products and providers offered by an intermediary within a particular category of life assurance, general insurance, mortgages, and/ or a specialist area. The number of contracts and providers considered must be sufficiently large to enable an intermediary to recommend a product that would be adequate to meet a client's needs.

The number of providers that constitutes 'sufficiently large' will vary depending on the number of providers operating in the market for a particular product or service and their relative importance in and share of that market. The extent of fair analysis must be such that could be reasonably expected of a professional conducting business, taking into account the accessibility of information and product placement to intermediaries and the cost of the search.

In order to ensure that the number of contracts and providers is sufficiently large to constitute a fair analysis of the market, we will consider the following criteria:

- the needs of the customer,
- the size of the customer order,
- the number of providers in the market that deal with brokers,
- the market share of each of those providers,
- the number of relevant products available from each provider,
- the availability of information about the products,
- the quality of the product and service provided by the provider, cost, and any other relevant consideration.

Life & Pensions

Frank Ryan Financial Services provides life assurance and pensions on a fair analysis basis i.e. providing services on the basis of a sufficiently large number of contracts and product producers available on the market to enable us to make a recommendation, in accordance with professional criteria, regarding which contract would be adequate to meet the your needs.
